

And the winner is...

We are delighted to report that

The Municipal Infrastructure Group Ltd. (TMIG)

and

Fabian Papa & Partners Inc. (FP&P)

have been awarded the contract to conduct the

City-Wide Water & Wastewater Master Plan

for the

City of Vaughan

“This project will help to shape future development and intensification in Vaughan in a holistic and sustainable manner and we are delighted to both be associated with TMIG and to have together with them been selected by the City as the team of choice to deliver it. The award of this project validates the long-term efforts made by both TMIG and FP&P to provide intelligent, valuable and quality services to its clients in specific and the municipal infrastructure industry as a whole. We thank Vaughan for the confidence it has placed in our team and look forward to working with City staff and all stakeholders on making the outcome of this work as meaningful and relevant as possible.”
